

EILEEN THERESA KENNEDY

**165 Tremont Street
Boston, MA 02111
Home phone (617) 208 8877**

Education

1979	Doctor of Science	Harvard University School of Public Health Nutrition Department Boston, MA.
		Collateral Areas of Study: Health Economics and Biostatistics
1975	Master of Science	Harvard University School of Public Health Nutrition Department Boston, MA.
1971	Master of Science	Pennsylvania State University State College, PA.
1969	B.A. Biology	Hunter College New York, New York

Additional Credentials

1972 to present: Registered Dietician (#369899), American Dietetic Association.

CURRENT POSITION

**Dean and Professor of Nutrition, Friedman School of Nutrition Science and Policy, Tufts University, Boston, MA
July 2004 to present**

Responsibilities include leadership of the only school of nutrition in the U.S. with a faculty of 65 and a graduate student body of 250 masters and doctoral candidates. Member of the President's Academic Council. Individual research focuses on the effects of policies and programs on health, nutrition, dietary patterns and poverty alleviation. Specific emphasis on research related to diet quality and effects on health and wellness. In addition, research focuses on agriculture-nutrition linkage; currently involved with research on bio fortification funded by the Gates Foundation.

Prior Positions

June 2003 to present

Adjunct Professor

Columbia University

Mailman School of Public Health

Dept. of Epidemiology

632 W. 168 Street

New York, N.Y.

Teach Graduate Course on *US and International Nutrition Policy* and conduct research in conjunction with the Columbia University, Human Nutrition Institute.

2002-June, 2003

Global Executive Director

International Life Sciences Institute

One Thomas Circle, N.W., Ninth Floor

Washington, D.C. 20005-5802 USA

Telephone (202) 659-0074

Fax (202) 659-3859

Email ekennedy@ilsi.org

The ILSI Global Executive Director has full responsibility and authority to direct and implement the strategic global mission and objectives set forth by the ILSI Board of Trustees. This includes providing leadership and oversight to the international programs and policies of ILSI's branches, Research Foundation, and Center for Health Promotion, as well as ILSI's day-to-day business operations. The ILSI Global Executive Director represents ILSI to organizations such as governmental agencies; legislative offices; foundations; community organizations; academic institutions; professional and scientific organizations; private industry; and the general public.

2001-2002

President

Global Nutrition Institute

Washington, D.C.

Dr. Kennedy was the founding President of the Global Nutrition Institute. The Global Nutrition Institute seeks to link science-based nutrition research to action. The Institute through public/private partnerships, develops and implements interventions to deal with global nutrition problems. The Institute works with colleagues worldwide to develop capacity for implementing nutrition programs. The Global Nutrition Institute was created in collaboration with Columbia University, Institute of Human Nutrition and Tufts University, School of Nutrition Science and Policy.

Nov 1997 – Jan 2001

**Deputy Under Secretary and Under Secretary (Acting)
Research, Education, and Economics
U. S. Department of Agriculture**

Under Secretary (Acting), formerly Deputy Under Secretary, provides policy advice, analysis and research for the Department of Agriculture (USDA) on agriculture, biotechnology, nutrition, environment, food safety, economics and extension. Oversees an annual budget of \$2.2 billion with a portfolio that includes four agencies: Agricultural Research Service; Cooperative State Research, Education and Extension Service; Economic Research Service; National Agricultural Statistical Service. Major responsibility for implementing reforms in the land grant system based on the research title of the Farm Bill. Responsibilities also included interacting with the Executive Branch of U.S. government and selected Congressional Committees, as well as liaison with White House, Office of Science and Technology Policy, State Department, AID, OMB, and Department of Health and Human Services on joint policy initiatives. Involved in social policy research related to the health, nutrition, food security, economic development and poverty alleviation in the United States and in developing countries.

- Co-chair of National Nutrition Summit Steering Committee, 1999-2000.
- Participant in the Intergovernmental Task Force responsible to U.S. Plan of Action post World Food Summit; Co-chair (with the U.S. Surgeon General) of the Interagency Committee on Nutrition Monitoring and Related Research.

CURRENT PROFESSIONAL ACTIVITIES and Honors

- Inducted into Pennsylvania State University, Alumni Fellows Hall of Fame, 2000.
- Elected to the Hunter College Hall of Fame, 1998.
- White House National Science and Technology Council, Committee on Science member of senior scientific committee to advise federal government on science policy in the U.S., 1998 – 2001.
- Member, National Academies of Science, Policy and Global Affairs Committee, 2009 to

present

- Member, Keystone Roundtable on Food and Nutrition 2007 – 2009
- Member, Transition Team and Interim Board, Smart Choices Program, 2008 - present
- Member, Blue Ribbon Advisory Committee, PepsiCo, 2008
- Member, Expert Advisory Committee, Nutrient Rich Coalition, 2007 to present
- Co-Chair (with U.S. Surgeon General), National Nutrition Summit, 2000
- Board Member, Global Child Nutrition Foundation, 2008 to present
- US Rice Federation Advisory Group Member, 2007 to present
- Advisory Group Member, Egg Nutrition Center, 2006 – present
- American Society for Nutrition, Member
- American Dietetic Association, Member
- Co-chair, Executive Research Committee overseeing Joint Institute for Food Safety Research, 1999-2001.
- Co-chair, USDA Biotechnology Communications Committee, 1999 – 2001.
- USDA Representative on White House Biotechnology Subcommittee 1998 – 2001.
- Co-chair, Interagency Board on Nutrition Monitoring and Related Research, 1997 – 2001.
- Co-chair of the USDA Diversity Council – 2000 – 2001.
- Member, Surgeon General’s Task Force on Health Disparities – 2000.
- Member of March of Dimes Steering Committee and Task Force on Nutrition and Optimal Development, 1998 – 2001.
- Liaison for USDA to Partnership to Promote Healthy Eating and Active Living, 1999 – 2001.
- Co-chair, NSTC, Interagency Working Group on Food Safety Research, 1998 – 2000.
- * Co-chair, NSTC, Committee on Science, Interagency Working Group on Plant Genomics, 1997 – 2001.

- * Member, U.S. - Israel Science and Technology Commission, 1998 – Present.
- * Advisory Group on Nutrition, United Nations Subcommittee on Nutrition, 1996 – 2000.
 - Member of nine person expert group appointed by the UN Agencies to provide policy advice and technical guidance on food security and nutrition issues.
- * National Academy of Sciences, Board on Global Health (formerly Board on International Health), 1995 – 2001.
 - Scientific board to provide technical and policy advice on issues of concern to global health; committee formulated white paper, America's Vital Interest in Global Health (1997) Institute of Medicine, National Academy of Sciences, Washington, D.C.
- * Member, Scientific Council - Dannon Institute, 1997 – 2001.
- * Member, Board of Directors, Dannon Institute, 2007 - present
- * Committee on International Nutrition, National Academy of Sciences, 1994 – 1996.
 - Areas of focus include:
 - *Food security and nutrition monitoring systems in Russia and the Newly Independent States
 - *Development of guidelines for food energy requirements of food aid rations
 - *Review and revision of protocol for Sick Child Initiative
- * Member, FAO/WHO Secretariat for International Conference on Nutrition, Rome, 1992.
- * International Center for Research on Women, Executive Board, 1988 – 1994.
- * Association of Women and Development, Board of Directors, 1986 – 1988.
- * Child Health and Nutrition Campaign, Expert Advisory Committee Member - ADA, 1994 – 1996.
 - Tufts University, School of Nutrition Communications Program, Advisory Board Member 1995 – Present.
- * Board of Directors, USDA Food, Nutrition and Consumer Service, 1995 – 1997.
- * U.S. Committee of the International Union of Nutritional Sciences, National Academy of Science, Board Member, 1993 – 1998.
- Journal of the American Dietetic Association, Editorial Board Member, 2000 – 2004.

- * Nutrition Today, Editorial Board Member, 1998 – Present.
- Family Economics and Nutrition Review, Editorial Board, 1997 – 2001.
- * Food Policy, Editorial Board Member, 1989 – 1995.
- Journal of Nutrition Education, Editorial board Member, 1986 – 1989.

ACADEMIC AND RESEARCH POSTS (see Annex for chronological listing and more detail)

- Professor (Adjunct), Columbia University, Human Nutrition Institute, 2003 - present
- Visiting Professor , Visiting Associate Professor, Visiting Assistant Professor. Tufts University, School of Nutrition, 1982-1994.
- Senior Research Fellow, International Food Policy Research Institute.
- Cornell University, Food and Nutrition Policy Program, Deputy Director and Adjunct Associate Professor, 1988-1989.
- Visiting Professorial Lecturer, School of Advanced International Studies, Johns Hopkins University, 1990-1993.

RELEVANT RESEARCH HIGHLIGHTS

The emphasis over the past 20 years has been on policy driven research focusing on the interface between health, nutrition, agriculture, economics and household behavior. Selected examples:

- Kenya Research, 1985-89 to assess the effects of commercialization of agriculture on income, health and nutrition of smallholder farmers; lived in rural Southwestern Kenya for a total of 18 months during the conduction of the research. Results used by Kenya government to reformulate parts of their commercialization of agriculture strategy.
- Comparative Analysis of Cash Cropping Strategies in 14 countries. Summarized in, Agricultural Commercialization, Economic Development and Nutrition. J. von Braun and E. Kennedy (editors), Johns Hopkins University Press, 1994.
- Ghana project to assess the effects of structural adjustment and the social safety net-PAMSCAD, including micro credit targeted to women.

- Comparative Analysis of women's credit schemes in Mali, Ghana, and Kenya.
- Multi-country project in Asia, Africa and Latin America to monitor food security and nutrition and to design and implement agriculture/nutrition projects in rural areas. Countries included Guatemala, Honduras, India, Mali, Ghana, and Kenya.
- Women's Health Nutrition Project- Gambia, Ghana, Jamaica, Guatemala, Malawi, Ethiopia, Pakistan and Dominican Republic to evaluate the effects of macroeconomic reform on women's income, health and nutrition.
- Vitamin A and mortality/morbidity in rural Kenya, in Collaboration with UNICEF Kenya.

PROGRAM OPERATIONS EXPERIENCE

- Director of Nutrition Services, Rhode Island Division on Aging; designed and implemented statewide congregate nutrition program and meals on wheels. Implemented weekly TV show focusing on elderly nutrition issues.
- Director of Nutrition, Providence Health Centers. Established clinical nutrition services for ten inner city health centers. Supervised professional and paraprofessional staff in home delivery of nutrition services. Coordinated first health center/EFNEP training and service delivery. Established food stamp hot line for low-income clients.
- Community Nutrition Institute, Senior Nutrition Trainer. Provided training throughout the U.S. on operational issues related to implementation of community based and statewide nutrition programs.

ANNEX I

PROFESSIONAL EXPERIENCE

July 2004 – present Dean, Friedman School of Nutrition Science and Policy, Tufts University, Boston, MA

June 2003-present Adjunct Professor, Columbia University, Mailman School of Public Health, Department of Epidemiology,

2002-June, 2003 Global Executive Director, International Life Sciences Institute,

Washington, DC

2001-2002

President, Global Nutrition Institute, Washington, DC/

Organization dedicated to identifying innovative approaches for solving global nutrition problems.

1997-2001

Under Secretary (Acting)- (formerly Deputy Under Secretary), Research, Education and Economics, USDA, Washington, D.C.

Provide leadership for research, education and economics within USDA and the public sector. Liaison with private sector on emerging issues. Active program of research related to the health, nutrition and income effects of agricultural policy.

1994-1997

Executive Director, USDA Center for Nutrition Policy and Promotion, Washington, D.C.

Oversee Management and provide technical direction for policy research and applied nutrition related to USDA domestic and international nutrition programs.

Responsible for USDA/HHS Dietary Guidelines for Americans and USDA Food Guide Pyramid

1982-1994

Visiting Professor, Visiting Associate Professor, Visiting Assistant Professor, Tufts University, School of Nutrition Medford, Massachusetts

Teach selected graduate courses and oversee graduate student research in international and domestic nutrition.

1989-1994

Senior Research Fellow, International Food Policy Research Institute, Washington, D.C.

Technical Director for Food and Nutrition Monitoring Project (1990 to 1994). Multi-country project in Africa, Asia and Latin America to design and implement ways for rural communities to enhance the food security and nutrition effects of agricultural policies and programs. Research conducted in Kenya, Ghana, Mali, Guatemala, Honduras and India.

Project Director for Women's Health and Nutrition Project to investigate the effects of economic development policies and programs on women in 10 countries including Kenya, Ghana, Gambia, Malawi, Ethiopia, the Philippines, Pakistan, Guatemala, Jamaica and the Dominican Republic.

Principal investigator on a fertility/nutrition project to evaluate the impact of income-generating policies on women's reproductive behavior.

Director of Project in Kenya to evaluate the impact of structural adjustment policies on the income, consumption, health and nutritional status of different segments of the population. Particular emphasis on the effects of macroeconomics policies on women and preschool aged children.

Principal Investigator for Vitamin A project in Kenya to assess the effect of Vitamin A dietary intake on later patterns of mortality.

Extensive fund-raising with bilateral and multi-lateral agencies as well as selected foundations.

1988 - 1989

Deputy Director, Food and Nutrition Policy Program, Cornell University, Washington, D.C.

Supervised Food and Nutrition Policy Program in Malawi, Rwanda, and Kenya.

Involved in research related to health and nutrition implications of various food and agricultural policies and programs in developing countries.

Periodic teaching in the Division of Nutritional Sciences.

1984 - 1988

Research Fellow, International Food Policy Research Institute, Washington, D.C.

Research activities involved analysis of effects of various food and agricultural policies and programs on health and nutrition of low-income households and individuals in developing countries. Principal investigator on project to evaluate effects of structural adjustment in Kenya.

1990-1993

Visiting Professional Lecturer, John Hopkins School of Advanced International Studies, Washington, DC.

Develop and teach course on Rural Households and Development.

**June 1981 to
Dec. 1983**

Nutrition Policy Consultant, International Food Policy Research Institute, Washington, D.C.

Involved in research sponsored by the United Nations Subcommittee on Nutrition to assess the role of various types of interventions on the nutritional status of low-income people in developing countries. Included design and analysis of agricultural production policies, food price subsidies, transfer programs (food stamps) and integrated health/nutrition interventions.

January 1979 to Dec. 1981 Chief, Nutrition Policy Branch, Office of Policy, Planning and Evaluation, Food and Nutrition Service, USDA, Washington, D.C.

Supervised a professional research staff of eight involved in policy and evaluation research on domestic nutrition interventions. Directed evaluations of the Special Supplemental Food program for Women, Infants, and Children (WIC), the Commodity Supplemental Food Program, Food for Thought, pilot media project, and sixteen food stamp/EFNEP pilot projects. Conducted research (in conjunction with the University of Oklahoma Medical Center) to test utility of a method for better identification of high-risk prenatal women and evaluate the effect of WIC supplementation in women at risk of poor neonatal income. Responsible for assessing the nutritional basis of benefits for all FNS programs, food stamps, WIC, CSFP, and the Indian Nutrition programs. Evaluated the effects of proposed changes in FNS programs on operation efficiency and effectiveness. Agency representative to the American Academy of Pediatrics, Committee on Nutrition. Member of task force to develop and implement the National Nutrition Monitoring System. FNS technical representative to the Select Panel for the Promotion of Child Health.

Dec. 1975 - June 1976 Research Associate, World Bank Urban Malnutrition Project Funded through Harvard University, Cambridge, Massachusetts.

Projects designed a framework for implementing nutrition interventions in urban areas of developing countries. Suggested means of assessing the nature and magnitude of nutritional deficiencies at global and local levels.

June 1976 - June 1977 Research Associate, Agency for International Development, Fortification Project Funded through Harvard University, Cambridge, Massachusetts.

Project addressed the barriers to effective implementation of macro and micro level fortification efforts. Explored constraints to successful implementation, including nutritional need, technological problems, commodity system structure, consumer acceptability and economic accessibility.

August 1974 - Sept. 1975 Senior Nutrition Trainer, Community Nutrition Institute, Washington, D.C.

Responsible for design of training and technical assistance on operational issues

for community based and statewide nutrition programs. Conducted technical assistance effort in 42 states in the U.S.

April 1973 Director of Nutrition Services, Rhode Island Division on Aging, Providence, RI
- July 1974

Provided overall direction for design and implementation of statewide congregate feeding program for elderly. Also implemented Meals on Wheels programs throughout the state. Worked with community organizations to develop emergency food banks for low-income populations. Developed an information and referral service for elderly statewide.

October 1971 Director of Nutrition, Providence Health Centers, Providence, R.I.
- April 1973

Implemented clinical nutrition services in ten inner city health centers in Providence, R.I. Coordinated training of community health workers and EFNEP home health aides in delivery of home nutrition services. Provide community-based practicum for dietetic interns at R.I. Hospital. Work with community action agency and other community groups in establishing a community nutrition network.
